VDA/ISO 9001/ISO 22241 CERTIFIED  
Designed for use on all Diesel  
vehicles fitted with AdBlue equipment.  
Store from -11 C to 35 C

# WHAT IS ADBLUE?

**AdBlue** is a very pure solution of urea, water & additives, which meets the automotive industry specification defined by ISO 22241.

The specific brand of **AdBlue** that we sell is *YARA Air 1*, a clear liquid (*similar in appearance to water*).

**AdBlue** is a high specification of urea in water (32.5%) and is used to chemically reduce NOx emissions from vehicles powered by diesel engines.

*AdBlue must be stored in a well-ventilated and cool tank/container.*

*Keep it out of direct sunlight, at a temperature between -11 degrees C and 35 degrees C.*

## HOW MUCH CAN I BUY?

**AdBlue** is packaged and sold in various container sizes...

- ✓ 1L
- ✓ 2L
- ✓ 5L
- ✓ 10L
- ✓ 20L
- ✓ 200L
- ✓ 1000L IBC
- ✓ BULK

The Price of **AdBlue** changes on a regular basis and is affected by the cost of urea.

Global supply issues can also have an impact.
