NICHOLL OILS

LUBRICANTS

Every piece of machinery you use is potentially a lubricants problem looking for an effective solution.

Nicholl Fuel Oils holds the solution.

With over 50 years unparalleled experience in the agricultural, industrial, commercial, marine and automotive sectors throughout the whole of Northern Ireland, we know your business, the kinds of machines you use and their applications.

We know that today's machinery is sophisticated, complex and expensive, an investment that requires a trouble free life span at maximum workload and needs optimal protection for moving parts. **We can give you this protection.**

We also efficiently distribute our own Technic brand of lubricants. Trained and knowledgeable staff provide hands-on technical advice as part of our lubricant service. It is this knowledge coupled with management expertise which acts as a pipeline of assistance to the perfection in lubricant distribution.
